ABOUT  
FLOWER  
STATION

**F**lower Station's journey started towards the end of 2001 with what still remains its flagship flower shop. It was set up in place of, what was once, a petrol station perfectly situated on London's Park Road, North London's gates to Central London. Today Flower Station has 4 shops in the city and is known as one of the top Florists in the capital.

**F**rom the smallest spruces to mature trees, we have a full range of luxury Nordmann Firs to suit every space and budget. And with a bespoke decoration service available, we can transform your office or lobby into the perfect winter wonderland. Whether you want a traditional style or something more contemporary, we work carefully to create beautiful, tailored designs for each and every one of our clients.
